AGENCY'S DISCUSSION AND ANALYSIS

MISSION

The Department of Labor, Licensing and Regulation (Agency) executes its mission to promote the health, safety and well-being of the citizens of this state by devoting its resources to ensure effective and efficient licensure processes, educate the public, train employees, and enforce laws and regulations affecting its programs. The Agency's programs encompass forty-one professional and occupational licensing boards (POL), the South Carolina Occupational Health and Safety Administration (SC OSHA), the Division of Fire and Life Safety (State Fire), Elevators and Amusement Rides, the Office of Immigration Compliance, and Wages and Child Labor. Each program contributes to making South Carolina a safer place to work and live.

The Agency by the Numbers in FY 2021-22

- The Agency's licensing boards conducted 197 public board meetings, of which 18 were two or more days long, and an additional 123 meetings of committees of those boards.
- The boards considered 791 disciplinary matters, held 99 panel hearings, and 1 hearing on a temporary suspension order.
- Board licensing staff issued 42,373 new licenses and 133,183 renewal licenses. The board staff also issued 3,864 reinstatements.
- Within the professional and occupational licensing division, 6,281 complaints were filed against licensees, 2,245 investigations were completed and 11,670 inspections were conducted.
- The Agency served 11,397 walk-in customers.
- The Office of Immigration Compliance conducted 2,868 audits to ensure employers were utilizing the E-Verify system, and e-verified 60,426 employees.
- The Office of Elevators and Amusement Rides issued 10,885 elevator operating certificates and 764 amusement ride operating permits.
- The Office of Wages and Child Labor investigated 1,615 wages complaints and 9 child labor complaints.
- OSHA performed 317 health and safety inspections, provided 695 responses to requests made to the Standards Office, and saved state businesses \$2.8 million in potential fines by offering voluntary consultation services through its Office of Voluntary Programs.

- The Office of State Fire Marshal performed 9,157 inspections, for an average of 610 inspections per deputy, resulting in over 4,713 violations found.
- The Community Risk Reduction (CRR) section of the Office of State Fire Marshal offered 5 programs to approximately 500 fire service members.
- The Fire Safe South Carolina Alarm Program provided the public, through local fire departments, with 5,016 smoke alarms, 444 carbon monoxide alarms, 51 combination smoke/carbon monoxide alarms, 89 hearing-impaired smoke alarms, and approximately 1,000 home fire drill planners.
- The State Fire Academy offered 2,969 training classes to 33,587 students.
- The Office of Communications and Governmental Affairs responded to more than 900 requests for information in the form of FOIAs and subpoenas.
- The Agency is self-sustaining, with 96.7% of the agency’s funding deriving from Other Funds, and only 3.3% of the funding deriving from General Funds.

Current Efforts and Associated Results

Including Significant Projects, Agency Successes, and Internal and External Factors Impacting the Agency Performance in the Past Year.

Highlighted below are some of the Agency’s successes over the past year, identified by their corresponding goal on the Agency’s strategic FY2021-22 plan.

Goal 1: Promote a positive business climate, efficient use of public resources and protect the public by licensing and registering qualified and competent individuals and businesses for the authorized practice of regulated professions.

The Agency’s POL Division, which is comprised of licensing and investigations, is tasked with protecting the public through the regulation of professional and occupational licensees and the administration of boards charged with regulating the professions and occupations. Each year, the Agency endeavors to improve processes to provide the most efficient and effective service to its licensees, board members and the public.

In FY21-22, the Agency requested and received 20 new full-time employee positions. The positions will be added to both the Office of Board Services (12) and in the Office of Investigation and Enforcement (8) and are in response to the increasing number of both new licensure applications and complaints filed with the Agency: a 3.3% increase in the number of licensees and a 13.9% increase in the number of new complaints in just FY21-22.

The Agency continued to focus on process improvement relating to the issuance of initial and renewal licenses and electronically tracking continuing education compliance. This year, the licensing

AGENCY NAME:	DEPARTMENT OF LABOR, LICENSING AND REGULATION		
AGENCY CODE:	R360	SECTION:	81

boards processed over half of the applications for initial licensure electronically, thereby saving staff time and resources by eliminating additional work associated with paper transactions. Additionally, 93% of all renewal applications were processed electronically, improving an entire percentage point over the prior year and inching closer to the goal of 100% electronic renewal.

The Agency continued to add licensing boards to the list of those using the Agency’s free continuing education (CE) tracking service. 30 boards are now using CE Broker, achieving the goal of 100% participation from boards with laws requiring continuing education courses (33) that do not currently utilize other CE tracking systems (3).

The investigations division, OIE, underwent a management change this year with the hiring of a seasoned agency lawyer to serve as the assistant deputy director of the division. OIE has now implemented an investigative audit process to review and improve investigations and investigative reports and has created and implemented a six-week training program for onboarding chief investigators that includes weekly meetings with the assistant deputy director or division deputy director to review policies and procedures, applicable laws and regulations, and best practices.

OIE saw improvement in a key measure of efficiency, the average number of business days investigators took to complete investigations. While the target of 125 days was not reached, the division nonetheless exceeded last year’s average of 132.7 days with a result of 128.5 days. Additionally, OIE completed 61% of its investigations within the target 125-day timeframe, up from 58% the prior year.

Cases that are recommended for disciplinary action at the conclusion of an investigation proceed to the Agency’s Office of Disciplinary Counsel (ODC). In FY21-22, ODC closed 894 cases and maintained the previous year’s ratio of closing more than one case for every new case it opened: 0.91:1.

In addition to its focus on improvements in core functions, the POL Division also developed and implemented several new licensing and inspection processes following the passage of laws establishing new licensure credentials.

- In 2021, the General Assembly passed a law authorizing the Board of Barber Examiners to issue mobile and portable barbershop permits and to establish permit requirements for those credentials. The Agency created a licensure and inspection process to support the new credential, and the Board promulgated regulations memorializing those processes in May 2022. Thus far, the Board has issued five mobile barbershop licenses.
- In 2021, the General Assembly, by proviso, required the Agency to issue registrations for mobile optometry units visiting Title I schools, and in 2022, the proviso was codified. The Agency has created a licensure and inspection process to support the new credential, and the Board of Optometry Examiners is promulgating regulations to memorialize those processes in 2023.
- In 2022, the General Assembly required the Agency to develop a registry of social workers and counselors licensed out of state who apply to provide mental health services to clients in state

AGENCY CODE:	R360	SECTION:	81

via behavioral telehealth. The bill, which was signed by the Governor, went live July 1st, thereby requiring the Agency to establish a registration program in three weeks.

From the financial perspective, the Agency Director and the Agency Finance Director conducted a comprehensive and global fee analysis at the conclusion of the fiscal year for all of the POL boards to ensure that each board’s fees are sufficient but not excessive to cover expenses for the operations of each respective board. The Director will present recommendations of changes to fees to the affected boards in order to promulgate regulations amending their fee schedules to bring the board budgets into full statutory compliance. The regulations will be presented to the General Assembly during the 2023 legislative session.

To ensure that boards are able to continue performing the services required of them by law at the highest level, the Agency also requested and received a non-recurring appropriation of \$2,000,000 in General Funds from the General Assembly in June 2022. These funds will be used for technological upgrades and enhancements to the board meeting rooms, for physical security of the office building, and for computer and technology security and capability. Board rooms will be enhanced with updated displays, projectors, speakers, microphones, cameras, and Wi-Fi, and board member laptops will be replaced.

Goal 2: Champion workplace safety and health through compliance assistance and enforcement of occupational safety and health regulations.

SC OSHA is a proud state plan committed to the mission of making South Carolina a safe place to work and live by preventing workplace deaths, injuries and illnesses.

The SC OSHA Compliance division conducts workplace inspections, prioritizing them based on imminent danger, fatalities or catastrophes, worker complaints or referrals, follow-up inspections, and target inspections for particular hazards or high injury/illness rate industries. In FY21-22, SC OSHA conducted 317 inspections, of which 233 were safety inspections and 84 were health inspections. The division reported a total of 438 violations found, 360 of which were considered serious violations. SC OSHA is pleased to report that 46.7% of its inspections, or 148 businesses, resulted in findings of compliance.

SC OSHA’s Office of Outreach and Education provides safety and health courtesy inspections, technical assistance, and safety and health training to aid the business community in voluntary compliance with all areas of the OSH Act. In FY21-22, Outreach and Education received 546 consultation requests and visited 570 workplaces. 567 of those workplaces achieved compliance, saving \$2.8 million in potential OSHA fines. 12,324 employees were helped through these consultations.

Outreach and Education also provides employees and employers training classes covering key safety issues facing workplaces today, such as SC OSHA’s Rights and Responsibilities, Lockout/Tagout and Violence in the Workplace. In FY21-22, the office delivered 131 training programs with over 2,750 employer/employee contact hours and resulting in 1,956 employees receiving training in FY21-22. This

AGENCY NAME:	DEPARTMENT OF LABOR, LICENSING AND REGULATION		
AGENCY CODE:	R360	SECTION:	81

is a 27% increase in the number of training classes provided and a 13% increase in the number of employees trained.

Outreach and Education also provides recognition and outreach programs such as the Palmetto Star Voluntary Protection Program, Safety and Health Achievement Recognition Program (SHARP), alliances and partnerships to recognize employers’ efforts to maintain safe workplaces. Palmetto Star and SHARP both recognize manufacturing facilities with exemplary safety and health records and reduced injury and illness rates. In September 2021, SC OSHA added one new SHARP participant, SafeRack, in Andrews, SC. This is the first new participant to the SHARP program in 6 years. Partnerships are extended, voluntary cooperative relationships designed to encourage, assist and recognize employers’ efforts to eliminate serious hazards and achieve a high degree of employee safety and health. SC OSHA entered into a limited partnership agreement with Juneau Construction in December 2021 to provide the safest possible work environment for employees working on the USC Campus Village construction project.

The Juneau Construction partnership is consistent with SC OSHA’s long-range efforts to develop workplace safety partnerships in the construction industry, a high-risk area with a significant likelihood of injuries and illnesses. In FY21-22, SC OSHA’s Compliance and Outreach and Education offices worked together to focus on the construction industry, completing 17 construction-related inspections and positively affecting 118 employees.

Goal 3: Serve as a statewide leader in minimizing fire loss and death, providing comprehensive and safe training for South Carolina’s fire and emergency services, and responding to state emergencies and disaster-related events.

State Fire provides: community risk reduction, code enforcement and engineering services through its Office of State Fire Marshal; education and training for fire service personnel through its Fire Academy; and assistance to local, regional and state governments by providing subject matter experts, guidance, and on-scene professional resources during disaster or emergencies through its Emergency Response Task Force. State Fire continues to be a leader of the State’s Fire Service in protecting lives and property, developing and maintaining critical relationships with local fire departments and associations. It has received national attention for its Community Risk Reduction programs and its Emergency Response programs.

Each year, State Fire endeavors to excel in the operational readiness and effectiveness of the Emergency Response Task Force (ERTF) and the Firefighter Mobilization (FFMOB) program. In FY21-22, the Agency emphasized the need to improve the State’s Emergency Response Task Force system, requesting and receiving from the General Assembly appropriations of over \$27 million from the General Fund dedicated to the following purposes:

- \$5,000,000 in non-recurring funds for Urban Search and Rescue (USAR) and Helicopter Aquatic Rescue Team (SC-HART) operations;

AGENCY NAME:	DEPARTMENT OF LABOR, LICENSING AND REGULATION		
AGENCY CODE:	R360	SECTION:	81

- \$5,000,000 in non-recurring funds for the Emergency Response Task Force Regional Collapse Search and Rescue Teams located in Myrtle Beach, Charleston, Beaufort, Columbia and Greenville to assist with equipment replacement;
- \$12,000,000 in non-recurring funds for SC Task Force 1 (SC-TF1) to replace USAR equipment, support equipment, and transport vehicles;
- \$2,750,000 in non-recurring funds to renovate the USAR building to add additional bunk and classroom space to house another firefighter recruit school, and to add beds and classroom space to the Fire Academy to launch an EMT Recruit School; and
- \$3,000,000 in non-recurring funds to support the construction of a new USAR Command Center.

This crucial funding will transform the State’s ability to respond to statewide emergencies by upgrading both equipment and facilities housing the emergency operations.

In FY21-22, State Fire’s Emergency Response programs remained busy, responding to requests for service both locally and outside of the state. SC-TF1, which increased its deployable and operational members from 138 to 154 this year, responded to Hurricane Ida, the strongest hurricane to hit Southeastern Louisiana since Hurricane Katrina. The team, along with the Palmetto Incident Support Team, remained on standby for other storms in the Gulf Region during hurricane season.

SC-HART also responded to a number of calls this past fiscal year, airlifting stranded and injured persons to safety in the upstate mountain region. FFMOB, which coordinates responses to help any agency once local mutual aid resources are exhausted, responded to 11 service requests throughout the state, ranging from multi-alarm fires to reports of endangered, missing persons. FFMOB also collaborated with the SC Emergency Management Division and Palmetto EOC to develop an instant notification tool to allow two-way communication between local departments and the FFMOB.

State Fire also strives to ensure this state is a national leader for fire service training through measured curriculum development, engaged staff and customer feedback. In FY21-22, the number of students enrolled in Fire Academy courses exceeded last year’s number by over 10,000 for a total of 44,770 students, a 33% increase. Similarly, the number of students who completed the courses increased from 24,133 to 33,587, a 27% increase. The Fire Academy offered 2292 in-person courses this year, and hosted 84 online webinars, 376 virtual meetings and 67 online classes. The Fire Academy had 85 students graduate from four on-campus recruit school sessions and 324 recruits graduated from regional recruit schools.

As evidence of the training programs’ effectiveness, the pass rate on the International Fire Service Accreditation Congress (IFSAC) certification exams increased from 70% to 85%. IFSAC offers international accreditation for fire and emergency-related programs. Many of the programs offered by the South Carolina Fire Academy receive credit at post-secondary higher education institutions and public fire service certifying entities.

For training on the national level, SC-TF1 hosted the annual State Urban Search and Rescue Alliance Conference in May 2022, bringing urban search and rescue teams from across the nation together for training and information sharing sessions.

During FY21-22, the Office of State Fire Marshal continued its focus on implementing clear and concise business practices and integrating new technology to ensure efficient and effective use of programs and services. Staff processed 3000 permits in the new Information Management System (IMS) which allows customers to request an inspection and be able to see when the inspection is scheduled and completed. All inspection and the majority of permitting programs in the Fire Marshal’s Office are now utilizing this new technology. In FY22-23, fire sprinkler contractors, engineers and plan reviewers will be onboarded for IMS use, as well.

The Fire Marshal’s Office also continued to cultivate partnerships with members of the public and policymakers on fire hazards in the state and best practices to minimize the rate of fire casualties, injuries and property loss through the Community Risk Reduction and Fire Safe SC programs.

The Community Risk Reduction Program (CRR) manages the Fire Marshal’s initiatives surrounding community risk reduction data, education and outreach. This year, CRR partnered with the American Red Cross in the Home Fire Campaign to install fire alarms, making this state the leading state in documented lives saved due to alarms installed (110). CRR also assisted with 12 smoke alarm installation blitzes in 12 counties, resulting in 954 alarms installed in South Carolina homes. Additionally, 366 new community partners were identified statewide, and 500,000 citizens were educated on fire and life safety topics by local fire department.

In its fifth year, Fire Safe South Carolina (FSSC) continues to be the flagship community risk reduction program for the state and serves as a national model. FSSC unites fire service organizations to engage influential community stakeholders to support local fire departments to serve their citizens through strategic community risk reduction programs. FSSC offers fire departments and communities that complete specific community risk reduction activities and goals the Fire Safe SC Community Designation. In 2021, 105 fire departments and their communities received the designation, a 30% increase from 2020.

Goal 4: Maximize organizational excellence and effectiveness to improve the quality of customer service in all programs through efficient delivery of administrative support.

The Agency’s HR division continues to focus on attracting top talent and providing a positive and consistent applicant experience in an efficient and effective manner to meet the Agency’s dynamic business needs. Like other public and private employers, the Agency faced recruitment and retention challenges due to a candidate-driven job market in which current and potential employees had a wide variety of employment opportunities available to them; the Agency had a 16.54% turnover rate. Although the Agency has experienced a decrease in the number of applications received for posted positions, HR and hiring managers have been able to timely fill many vacancies with quality candidates by striving to have a streamlined and efficient recruitment process and to emphasize the benefits package the State provides its employees.

AGENCY NAME:	DEPARTMENT OF LABOR, LICENSING AND REGULATION		
AGENCY CODE:	R360	SECTION:	81

The Agency averaged 41 business days to fill a vacant FTE position, slightly higher than the previous year, 37 days. 89% of offers extended were accepted, roughly the same as the last year and the Agency’s target.

The Agency’s Division of Technology and Security (DoTS) maintained its focus of expediting the acquisition and delivery of modern and innovative technology and cybersecurity infrastructure to safeguard customer data and optimize business processes. DoTS significantly exceeded the number of new desktop and laptop devices projected to be added from 100 to 143. Newer technology means safer technology, and protecting information the Agency collects from its licensees is a top priority. HR has also ensured 100% employee compliance with mandatory cybersecurity training, education and awareness programs, adding an additional layer of protection to licensee data.

RISK ASSESSMENT AND MITIGATION STRATEGIES

The purpose of the services the Agency provides is to make South Carolina a safe place to work and live, so failure of the Agency to accomplish its objectives would result in less safe working and living conditions in the State, from worksites to fire safety and emergency response to occupational and professional services that require regulation to ensure public safety and welfare. To the extent the Agency is asked for recommendations to the General Assembly to avoid such a crisis, the Agency would offer that the General Assembly continue to grant FTE positions, whenever requested, as those are needed to have sufficient staff to provide excellent customer service and implement the various number of Agency services; and to continue to support adequate funding to fulfill those missions.
