

The SC Board of Accountancy wants to make you aware that Bill S812, ratified and signed by the Governor, has resulted in comprehensive modifications to the Accountancy Practice Act, effective May 16, 2022. As a result of changes made by the [bill](#), updates will need to be made to the Board website and forms, with input from the Board. Please note that as we make these changes and work toward full implementation, if any discrepancies are found between the statute, regulations, website, and forms, that the statute will take precedence. More information is available in the 2022 [legislative update](#).

The Board will keep you updated as the changes are implemented. We appreciate your patience. If you have questions, please contact staff at contact.accountancy@llr.sc.gov.
