**NOTE:**

The Nitrous Monitoring Course alone does not give any privileges to monitor nitrous oxide and could result in action against you, your license and/or the license of the supervising dentist.

Applications are worked in the order that they are received. An application cannot be worked unless the application form is complete, has the fee attached, and includes all requirements.

Please make sure your dental practice is aware that certification cannot be issued without all requirements being met, not just a course completion. That is grounds for possible disciplinary action.

Your application is good for one (1) year from the date of receipt. If all required information is not received within this one (1) year period; you must begin the application process from the beginning. This includes, but is not limited to the application fee, copies of certificates, etc.
