TAKING THE THEORY EXAMINATION (COMPUTER BASED)

The examination will be administered via computer. You will be using a mouse and computer keyboard.

IDENTIFICATION SCREEN

You will be directed to a semiprivate testing station to take the examination. When you are seated at the testing station, you will be prompted to confirm your name, identification number, and the examination for which you are registered.

TUTORIAL

Before you start your examination, an introductory tutorial to the computer and keyboard is provided on the computer screen. The time you spend on this tutorial, up to 15 minutes, DOES NOT count as part of your examination time. Sample questions are included following the tutorial so that you may practice using the keys, answering questions, and reviewing your answers.

TEST QUESTION SCREEN

The “function bar” at the top of the test question screen provides mouse-click access to the features available while taking the examination.

The screenshot shows a web-based test interface. At the top, there is a function bar with icons for Mark, Comments, Goto, Help, and End. Below this, a status bar displays: Question: 3 of 40, Answered: 2, Unanswered: 1, Marked: 0, View: All, Time Left(Min): 359. The main question area contains the text: "3. What do the stars on the United States of America's flag represent?". Below the question, it says "(Choose from the following options)". There are four radio button options: "1. Presidents", "2. Colonies", "3. States", and "4. Wars". At the bottom of the question area, there are two buttons: "<< Back" and "Next >>".

One question appears on the screen at a time. During the examination, minutes remaining will be displayed at the top of the screen and updated as you record your answers.

IMPORTANT: After you have entered your responses, you will later be able to return to any question(s) and change your response, provided the examination time has not run out.

EXAMINATION REVIEW

While taking the theory examination, examinees will have the opportunity to provide comments on any questions. Comments may be entered by clicking the Comments link of the function bar of the test question screen.

These comments will be analyzed by PSI examination development staff. PSI does not respond to individuals regarding these comments, all substantive comments are reviewed. **This is the only review of examination materials available to candidates.**

SCORE REPORTING

Examination results for both theory and practical are provided to you immediately following completion of the examination. The minimum score required to pass both the theory and practical examination is 75. When you complete the examination, you will receive a score report indicating “FAIL” or “PASS”.

DUPLICATE SCORE REPORTS

You may request a duplicate score report after your examination by emailing scorereport@psionline.com or by calling 800-733-9267.

TIPS FOR PREPARING FOR YOUR LICENSE EXAMINATION

The following suggestions will help you prepare for your examination.

- Planned preparation increases your likelihood of passing.
- Start with a current copy of this Candidate Information Bulletin and use the examination content outline as the basis of your study.
- Read study materials that cover all the topics in the content outline.
- Take notes on what you study. Putting information in writing helps you commit it to memory and is also an excellent business practice. Underline or highlight key ideas that will help with a later review.
- Discuss new terms or concepts as frequently as you can with colleagues. This will test your understanding and reinforce ideas.
- Your studies will be most effective if you study frequently, for periods of about 45 to 60 minutes. Concentration tends to wander when you study for longer periods of time.

BE CERTAIN TO REVIEW ALL PARTS OF THIS NIC EXAMINATION CIB CAREFULLY!

IMPORTANT INSTRUCTIONS

General

- The NIC Practical examinations are designed to assess candidates' ability to perform tasks expected to be performed while working as a licensed professional. The tasks a candidate will be asked to perform are those that frequently occur on-the-job and that are important to safe and proficient performance. Though the tasks are performed in an artificial testing session, efforts are made to make the tasks seem realistic and to closely mimic actual conditions. Candidates are expected to conduct themselves as if they were performing these tasks in actual scenarios.
- Do not leave the examination area without permission. Permission must be obtained to leave the examination area for any reason, including restroom usage or at the completion of the examination. *Picture ID is required for re-entry into the examination.*

- All examinations are administered in a testing environment.
- Candidates are evaluated at all times. Continue working until the entire section is complete or time has elapsed.

Supplies

Candidates are required to bring a supply kit for their own use.

- It is the candidate's responsibility to make certain they have a sufficient quantity of supplies that have been properly cleaned and disinfected and that implements are in proper working order.
- The kit will be used during the examination as dry storage and is considered part of the work area. The kit must be kept closed except when removing materials for a particular service.
- Candidates may remove items, supplies, etc., from the kit at any time, however *nothing* may be returned to the kit.
- EPA registered, disinfectant wipes that demonstrate bactericidal, fungicidal, and virucidal properties must be used. DISINFECTANT AND AEROSOL SPRAYS ARE NOT ALLOWED IN THE TESTING ENVIRONMENT.
- **All supplies must be labeled in English.** When an original manufacturer's label is required, there can be NO handwritten or any other type of labeling. Original manufacturers' labels must have English and may also include other languages. All non-manufacturer-created labels must be only in English.
- Original manufacturer's labels are *required* for all disinfectants and hand-sanitizers.
- Simulated products are not allowed for disinfectants and hand sanitizers.
- Candidates are to perform all tasks, utilizing products and supplies, as they were taught. There is however, a section titled "Suggested Examination Supplies" provided for each section of the examination. Suggested Supplies can be found after the "Content Domains" section of this bulletin.

Standardized Administration

Due to standardization of the NIC National Examinations, proctors and examiners are required to adhere to the following standards:

- The verbal instructions will be read twice for each section of the examination.

 - "Do as you were taught."
- If a candidate experiences an emergency situation, they may notify the proctor by raising their hand.
- Candidates will be given time to set up the universal (also known as general) supplies they will use throughout the examination.
 - Each section of the examination has a maximum time allowance, with the exception of those specified as untimed sections.
 - Once a candidate has completed all tasks in the section, they need to step back to indicate they have finished. In the event that all candidates complete a section before the time has

elapsed, the examiners will proceed to the next section of the examination. When the timer goes off, all candidates must stop working and step back IMMEDIATELY.

Prohibited Items
