Reviews are conducted in order of receipt and completed within six weeks. Applicants are notified of review results via postal mail.

Delays result from incomplete applications. Every applicant's file is reviewed within six weeks of receipt. If the review reveals that additional documentation will be necessary to determine whether the applicant's education meets the requirements, the applicant is sent a letter explaining what is needed to complete the review. When additional documentation arrives, it is added to the applicant's file. The file is then returned to queue to be reviewed. The review will occur within six weeks of receipt of the additional documentation.

This application supersedes any previous versions.

General: Candidates for initial licensure must apply and are first qualified for licensure as a marriage and family therapy intern (LMFT/A) after review and approval of past educational experience and achieving a passing score on an approved marriage and family therapy examination. The educational requirements are outlined fully on pages 8-10 of this packet.

Examination: All licensure candidates must take and pass the National Marital and Family Therapy Examination administered by Professional Testing Corporation (PTC). Once your educational experience has been approved, you will be forwarded examination registration information. Additional information about the examination can be found on page 11 of this packet.

Candidates who have already taken and passed the MFT examination must indicate the date passed on page 13 of the application and must have official score verification submitted to CCE. Contact PTC for all exam questions at 212-356-0660 or www.ptcny.com.

Application Completion Process: You are allowed three years from receipt of your initial application to complete all requirements (including passage of the exam) and obtain licensure. If licensure is not obtained within three years, you will be required to submit a new application, fees, and up-to-date credentials to meet the licensure requirements that are in effect at the time of reapplication.

CCE Review Appeals Process: As an applicant for licensure, you have the right to appeal the findings of the coursework/education review completed by CCE. Please be aware that all applications for licensure in South Carolina are reviewed by CCE, which is the contracted agent for the South Carolina board. CCE's credential review process is based on the South Carolina *Code of Laws* and *Code of Regulations*. The requirements stated in the regulations and in the application must be met in full. To appeal an application review decision, a letter should be sent to CCE explaining your request and should include any supporting documentation that is related to your appeal. Your information will be reviewed a second time by CCE. After a second review is completed, your information will be forwarded to the South Carolina Board of Examiners. The South Carolina Board of Examiners' final decision will be sent to CCE and become a part of your application file. CCE will contact you with the final results of the South Carolina board's review.

Official Licensure Approval: Candidates who have received confirmation that their educational experience has been tentatively approved by CCE and who have achieved a passing score on the required examination will have their file sent for review for official approval by the **South Carolina licensing board**. Candidates are not licensed as an LMFT/A until they receive official notification from the South Carolina board.

When a candidate has passed the examination and the application file arrives at the South Carolina board, the following steps occur:

- The South Carolina board will send you an official notification letter within approximately four to six weeks.
- This letter will contain useful information about your new license and will include the license activation fee amount that must be remitted to the South Carolina board in order to activate this license.
- Once your license activation fee is received, you will be sent a wall certificate and license card within approximately one week.
- If your application has been approved for an intern license, you cannot begin the required 120 hours of supervision until you receive a license to practice in the state of South Carolina.

Practice As An LMFT Associate: Licensure as an LMFT/Allows an individual to begin practicing under the supervision of a qualified LMFT supervisor, LMFT supervisor candidate, licensed psychologist or licensed psychiatrist (medical doctor) who possesses the knowledge and expertise necessary to provide a supervised person with guidance and direction and gain supervised experience hours (1,500 hours of clinical experience of which a minimum of 120 hours are to be spent in immediate supervision with a LMFT supervisor or supervisor candidate) and gain supervised experience hours over

a period of not less than two years toward full marriage and family therapy licensure. According to the South Carolina Practice Act, individuals must be licensed to practice in the state of South Carolina; therefore the LMFT/A licensure is mandatory. Current South Carolina supervision policies, guidelines and lists of LMFT supervisors are available at www.llr.state.sc.us/pol/counselors. A candidate is not licensed as an intern or by endorsement until official notification is received for the South Carolina Board of Examiners and a license is issued.

Note: Specific training is required for LMFT/Associates who wish to assess and treat serious problems (see South Carolina Regulation 36-07.1, below). The completion of a specific practicum and internship that dealt with serious problems as categorized in standard diagnostic nomenclature is required. Those applicants with only a 100 hour practicum will need to move slowly into assessing and treating serious problems, under the supervision of a qualified supervisor during the LMFT-A licensure. The internship of at least 600 hours is not required to obtain licensure as an LMFT Associate. The experience gained in the 600-hour internship determines the level of practice what you can perform once licensed as an LMFT Associate.

SC Regulation 36-07.1. Specific Training Required for Licensed Marriage and Family Therapy Associates to Assess and Treat Serious Problems as Categorized in Standard Diagnostic Nomenclature

In order for any person licensed as a Licensed Marriage and Family Therapy Associate to assess and treat serious problems as described in standard diagnostic nomenclature, a Licensed Marriage and Family Therapy Associate must have satisfied the following requirements in addition to the academic course requirements outlined in Section 36-07(2)(a-f):

- (1) Completed a practicum as part of a degree program, as required in Section 36-07(2)(f) above, that dealt directly with the assessment and treatment of more serious problems as categorized in standard diagnostic nomenclature; and
- (2) Completed an internship, as part of a degree program, of at least 600 hours under the supervision of a licensed marriage and family therapy supervisor that included experience assessing and treating clients with more serious problems as categorized in standard diagnostic nomenclature.

Supervision Requirements: A Plan and Arrangements for Clinical Supervision of Post-Master's Clinical Experience in Marriage and Family Therapy is a required document that must be submitted with the application (see pages 21-23). The supervision policies, guidelines and list of supervisors are available at www.llr.state.sc.us/pol/counselors. Select "Applications/Forms" from the right-hand side of the homepage and scroll down to the "Marriage And Family Therapist (LMFT) and Associate" section. Then select "List of Supervisors." The 120 hours of immediate supervision can only be obtained from an LMFT supervisor or supervisor candidate licensed in South Carolina.

- This is a plan that is used to acknowledge and verify that arrangements have been made with a South Carolina LMFT supervisor/supervisor candidate to obtain 120 hours of supervision. These hours will not begin until after you have obtained a license to practice in South Carolina as an LMFT associate, therefore, the "From/To" dates of supervision can be estimated to begin approximately three months in advance of the date of your application to allow time for the credential review/passage of the exam/obtaining a license to practice.
- The "To" date should reflect a two year period from the beginning date since the LMFT associate licensure period is structured for a two-year period.
- Section 1 "Total number of hours" should reflect 1,380 hours.
- The "From/To" dates for both section 1 and 2 should reflect the same date ranges.

SUPERVISION

Regulation 36-01(1) defines supervision as:

Supervision means face-to-face contact between a supervisor and an Intern or other person requiring supervision under this chapter during which time the person supervised appraises the supervisor of the diagnosis and treatment of each client, during the supervisory process. The supervisor provides the supervised person with oversight and guidance in diagnosing, treating, and dealing with clients, and the supervisor evaluates the supervised person's performance.

The focus of a supervision session is on raw data from clinical work which is made directly available to the supervisor through such means as written clinical materials, direct (live) observation, co-therapy, audio and video recordings, and live supervision.

Supervision is a process clearly distinguishable from personal psychotherapy and is contrasted in order to serve professional goals.
