TO ALL PROVIDERS OF CONTINUING EDUCATION PROGRAMS:

The South Carolina Board of Registration for Professional Engineers and Surveyors does not pre-approve specific continuing education programs or providers of continuing education programs.

Individuals licensed in South Carolina as a Professional Engineer or Surveyor must obtain thirty (30) professional development hours during each biennial licensing period. For more information, see Section 40-22-240 of the statutes. (Exceptions: Engineers and surveyors who have been continuously licensed in South Carolina since January 1, 1969, are not required to obtain continuing education for renewal. Emeritus engineers and emeritus surveyors are also not required to meet continuing education requirements. See Regulation 49-600 for additional exemptions.)

Definitions and details about continuing education requirements, credits, record keeping, audits, exemptions, and reinstatements are found in SC Code of Regulations, Section 49-600.
