

Important Update for Exam Candidates!

Starting January 3, 2025, NAB will transition from our third-party testing company, PSI, and will launch NAB national examinations (CORE, NHA, RCAL, HCBS) and state examinations with our new testing vendor, Pearson VUE.

The exam content will not change.

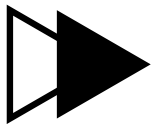

Important Dates

December 14, 2024: Last day to take any national NAB examinations (CORE, NHA, RCAL, HCBS) and/or state-specific examinations offered on NAB's platform, through the PSI test network.

December 15, 2024 - January 2, 2025: Temporary unavailability of exams. During this period, you will not be able to apply for, schedule, or take any of the above listed examinations.

January 3, 2025: All examination services will resume with Pearson VUE. You can start applying for, scheduling, and taking exams again.

We want to assure you that while we are changing our vendor and testing center locations, **the examination content will remain the same.** The most recent examinations launched on July 1, 2024 will stay active through June 30, 2025.

Please plan accordingly to complete the examination process as needed. Applications started before January 3, 2025 will still be valid to test with Pearson Vue. NAB has notified all member boards of the upcoming transition. If you have any questions, contact us nab@nabweb.org.

Thank you for your understanding and cooperation during this transition.
