Discussions/Chair Discussions

The Committee briefly discussed Portable Ventilator Competency pertaining to RN's in an ER setting in the absence of Colette Rose, RMA, Infection Control, Fairfield Memorial Hospital. Referencing the **South Carolina Code Section 40-47-530(A); states that the South Carolina Respiratory Care Practice Act does not affect certain provisions, including, among others, An individual or other health care professional who is licensed by the state or who has proven competency in one or more of the functions included in the definition of**

Respiratory Care Practice as long as the person does not represent themselves as a Respiratory Care Practitioner. To qualify for this exemption, an individual must provide proof of formal training for the functions which include an evaluation of competence through a mechanism that is determined by the Board and committee to be both valid and reliable. Accordingly, this policy is adopted by the Board and committee to establish an appropriate mechanism for determining an individual's qualification for an exemption under Section 40-47-530(A)(3). Any exemption granted must be limited to the function(s) for which competency has been satisfactorily proven and approved by the Board.

The committee would like to recommend that the medical board place some type of training requirements, guidelines and/or certifications to show competency/experience.

Some suggestions/Recommendations;

1. 400-500 hours rotation be required
2. Only a licensed RCP should manage mechanical ventilation
3. ER, paramedic transport it is up to the institution to make sure that the individuals are competent and must have a medical director.

The committee decided to table this discussion until review of Section 40-47-530.
