

Thank you for his opportunity to explain my interest and certainly state board of medical examiners. I have been an active member of the State Board's Physician Assistant Committee since 2020 and was appointed to the Medical Disciplinary Committee in 2024. Through this experience, I have had the opportunity to broaden my understanding of the State Board's workings and would like to continue to serve the people and physicians of the state of South Carolina in a greater capacity.

I am a board certified Internal Medicine physician and a Fellow of the American Academy of Physicians with substantial experience in both education and physician leadership. I am a graduate of Davidson College, the University of South Carolina School of Medicine, and what was then Palmetto Health's Internal Medicine Residency. In addition to multiple physician leadership roles, I currently serve as a practicing hospitalist and have academic appointments to the USC School of Medicine – Columbia and the Edward Via College of Osteopathic Medicine. I have been awarded multiple teaching awards, including The South Carolina Chapter of the American College of Physicians James A. McFarland Award, the University of South Carolina School of Medicine's Dean's Distinguished Service Award from, and multiple teacher and preceptor of the year awards. I serve on the board of directors of the Dorn Research Institute and am a past board member of the National Association of VA Research and Educational Foundations and a past President of the University of South Carolina School of Medicine Alumni Association.

Thank you for your consideration.
